Know Us

Incepted in the year 1992, we are an ISO 9001:2008 company engaged in manufacturing and exporting a wide range of plastic packaging material. We have emerged as an organization with an immense industrial knowledge and thus have achieved a lot of recognition in this sector worldwide. Our entire range of plastic packing materials is available for various purposes such as food packaging, industrial packaging, healthcare or FMCG and retail markets.

Our head-office is situated in Jaipur (Rajasthan) and our globe-spanning network is fruitfully enabling us in meeting the demand of our global customers thereby upholding our status to skyscraping height. We have all the necessary technical set-up to offer I range that is at par with the international standard as well in sync with the clients' need.

The fame we achieved in a span of 17 years is entirely due to the able guidance of our owner Mr. R.K. Gupta who is very, dynamic personality and has 25 years of experience in manufacturing of Flexible Plastic Packaging Material. He is a technocrat holding B.E. (Mechanical) degree and has an experience of over 10 years in management staff of reputed MNC's. His sincere efforts along with tremendous pains in constantly inspiring the entire teams have helped us in gaining a lot of recognition worldwide.

Achievements of the organization:

- In a period of 17years we have earned the following achievements which speak volumes about the successful running of our organization:
- **World Economic Development Award for Quality Excellence 2008.**
 - **Bhartiya Udyog Award by International Integration & Growth Society.**
 - **Quality Mark Trust Award 2015 - Awarded for Best Quality Packaging Solution Manufacturer in Rajasthan**

Infrastructure

We have a highly developed infrastructure with state-of-the-art machines for manufacturing superior quality plastic packaging materials. Our infrastructure aids in sustaining our success by constantly enabling us to respond to the demands in the market Our manufacturing plant is spread across a total plot area of 4000 sq. ft. and the installing capacity of the same is 3000 units.

The infrastructure comprises of a good work environment, skilled engineers, and support staff making use of fully computerized environment for greater effect. We have a competitive warehousing facility that is well equipped with the latest technology for the site stocking of products. Moreover, our world class infrastructure helps us to set new standards in meeting the supply and export of voluminous consignments of our global clients.

Quality Assurance

Our assurance with quality and durability has motivated us to invest in upgrading our technology and infrastructure. We are incessantly improving our quality to serve our clients better. Every time it remains our sole aim to cater to their needs in an efficient manner applying all the necessary improvements for the same. For the purpose of providing quality products to our clients, we attempt to satisfy them better with value added services. All of our products undergo careful inspection and documentation processes before they are actually outsourced in the market. Our team of experts maintains a strict vigil on the quality of the products.

Why Us?

- Incorporated with durability and reliability, the packaging material supplied and exported by us is globally recognized. The wide range of plastic packaging to touch the zenith of quality standards and are globally acknowledged due to the following highlighting features:
- **High Quality**
 - **Wide assortment**
 - **Products are in accordance with international standards**
 - **Excellent service over the years.**
 - **Best possible solutions for any packaging solutions**
 - **Cost effective alternative to the conventional packaging**

Client Satisfaction

In our endeavor or to meet the exact requirements of our global clients in terms of quality and performance, we manufacture wide scale of plastic packaging materials and components.

With a vision to achieve more effective integration into sourcing our products worldwide, we proficiently execute as per customers indent and specification in time. Our focus on the following factors enables us to boost our client's profitability:

- **Delivery of high quality, durable products**
- **Superior client services**
- **Value-added services**
- **Satisfy emerging market needs**
- **Ethical business approach**

Customers

We have customers from Food Packaging, Industrial Packaging, Healthcare, FMCG and Retail markets. Some of our esteemed customers are as follows:

PRODUCTS

We manufacture and deliver a broad range of plastic bags, packaging supplies and poly tubing for the Food Packaging, industrial Packaging, Healthcare, FMCG and Retail markets.

Our diversified range of products include:

LAMINATED POUCHES AND ROLLS

MULTILAYER COEXTRUDED FILMS AND BAGS

MILK, CHHACH AND
LASSI PACKING FILMS

WATER PACKING FILMS

LDPE LAMINATION FILMS
FOR PET, BOPP AND
CPP LAMINATION

FOOD GRADE LDPE
LINERS FOR
MILK POWDER AND
OTHER FOOD ITEM PACKING

LDPE SHRINK FILMS FOR
ALL KINDS OF SHRINK WRAPS

OTHERS : OIL AND
GHEE PACKING FILMS

PP (POLYPROPYLENE)
BAGS AND SHEETS -
PRINTED AND PLAIN

LDPE (POLYTHENE) BAGS, AND SHEETS - PRINTED AND PLAIN

POLYTHENE INDUSTRIAL LINERS

GARBAGE BAGS

PRINTED POLYTHENE BAGS
FOR VARIOUS USAGES

HDPE/HMHDPE (HIGH DENSITY POLYTHENE) BAGS, SHEETS AND LINERS

PLASTIC CARRY BAGS

T-SHIRT BAGS

HDPE LINERS FOR WOVEN
SACKS AND JUTE BAGS

DUSTBIN BAGS

100%BIO DEGRADABLE BAGS /
ECO FRIENDLY D2W BAGS

POLYPROPYLENE FILMS AND BAGS

Polypropylene bags have been the ideal choice for product packaging since a long time. They have excellent clarity and freshness preserving capabilities. They are a popular choice for garment packaging because of their clarity and shine. They are good choice for perishable product because of their vapor and moisture barrier properties. Our polypropylene bags meet the requirements stipulated in IS 10909 and FDA requirements laid down in FDA CFR Title 21,177.1520, Olefin Polymers for food packaging use.

Manufacturing Capabilities

- We have the latest PP Blown Film extruders for manufacturing the best in line PP films and Bags.
- Custom printing up to 8 colors for PP bags are available.
- Sizes from 4 inch to 28 inch (Lay flat width) and Thickness from 15 micron to 100 micron are available.

Product Range

- Flat Bags
- Printed Bags
- Side Gusset Bags
- Bottom Gusset Bags
- Side Sealed Bags
- Bottom Sealed bags

POLYETHYLENE (LDPE/LLDPE) BAGS AND FILMS

Polyethylene bags and films are the most widely used for packaging needs. These bags can handle a wide variety of packaging needs right from Industrial bags meet the requirements stipulated in IS -10146 - 1982 and FDA requirement laid down in FDA:CFR Title 21.177.1520, Olefin polymers, sealed and are more stronger and less brittle than Polypropylene bags. But they are comparatively less in clarity and shine than Polypropylene bags. Our Wide variety of packaging needs right from Industrial Packaging to Food Packaging. They can be heat

Manufacturing Capabilities

- We have the latest LDPE/LLDPE Blown Film extruders for manufacturing the best in line Polyethylene films and bags.
- Custom printing up to 8 colors for bags are available.
- Size from 3 inch to 40 inch (Lay flat width) and Thickness from 15 micron to 200 micron are available.

Product Range

- LDPE/LLDPE Films
- Flat Bags
- Gusset Bags
- Liners
- Garbage Bags
- Refuse Bags

HDPE BAGS AND FILMS

High Molecular High Density Polyethylene films and bags are more stronger and durable. They wide applicability is in Merchandise bags, Retails counters, T-Shirt Bags, Carry Bags etc. Their high tensile strength makes them suitable for carrying larger weights in lower thickness bags.

Manufacturing Capabilities

- We have the latest HDPE Blown Film extruders for manufacturing the best in line high molecular films and bags.
- Custom printing up to 8 colors for HDPE bags are available.
- Sizes from 3 inch to 40 inch (Lay flat width) and Thickness from 10 micron to 200 micron are available.

Product Range

- HMHDPE Films
- Flat Bags
- Printed Bags
- Gusseted Bags
- Shopping Bags
- T- Shirt Bags
- Carry Bags

MULTILAYER CO-EXTRUDED FILMS

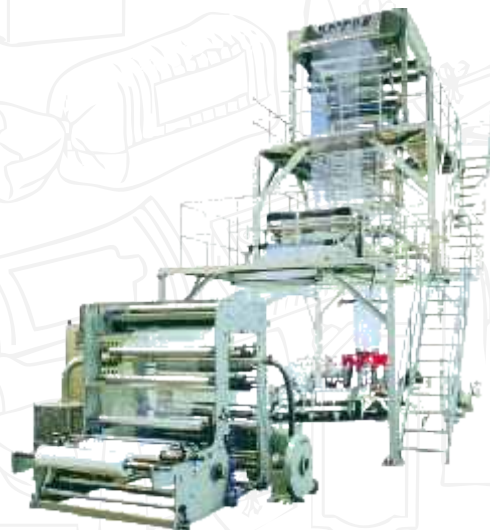

Multilayer films are used for various crucial applications in flexible packaging, which demand vital film properties like dart impact strength, substance, puncture resistance, hot track strength, gloss, oxygen and moisture barrier etc. We have the capabilities of producing up to 3 layer co-extruded films.

Manufacturing Capabilities

- We have the latest Multilayer co-extruded Blow film for manufacturing the best in line co-extruded films and bags.
- Custom printing up to 8 colors for co-extruded films and bags are available.
- Sizes from 10 inch to 50 inch (Lay flat width) and Thickness from 20 micron to 200 micron are available

Product Range

- Liquid Packaging - Water, Milk, Oil, Ghee, Liquor
- Food Packaging - Wheat flour/grains, Rice, Sugar, Salt, Cereals
- Lamination Film
- Shrink Film
- Chemical Packing
- Heavy Duty bags for bulk packing

LAMINATED POLYESTER/BOPP POUCHES

We have complete facilities installed for manufacturing of all kinds of Laminated Polyester/BOPP pouches. Custom printing up to 8 colors is available. Both 3 side sealed and Centre Sealed options are available for the pouches.

Product Range

- Salt, Spices and Condiments Packaging
- Tea and Coffee Packaging
- Vacuum Packaging
- Food & Bakery-Biscuits, Chips, Chocolates, Snacks, - Meat/Sea Food, Confectionary items
- Detergents, Soaps and Shampoo Packing
- Milk, Water, Milk Powder and other Milk Products Packaging

BIODEGRADABLE BAGS

We are one of the leading manufacturer and exporter of Biodegradable Bags. Our Biodegradable bags are available in a range of popular sizes. These Biodegradable bags are suitable for a variety of packaging applications.

Manufacturing Capabilities

- The Biodegradability of our product is 62% in 120 days, the highest biodegradability among similar products.
- Sizes from 3 inch to 40 inch (Lay flat width) and Thickness from 30 microns to 200 microns are available.
- Custom printing of upto 8 colors for bags is available.
- Printed and Plain Eco Friendly Biodegradable Bags conform to ASTM D5338-15 and ASTM D6954-04 standards.

Product Range

- Biomedical waste bags for Hospitals
- Refuse Bin bags
- Shopping/Carry Bags
- T-Shirt Bags
- Flat Bags
- Printed Bags

PRINTING CAPABILITIES

We have in house capabilities of both Rotogravure Printing and Flexographic Printing. Customized printing up to 8 colors can be done.
